Product Overview

This TVS-360-WP can take up to 4K videos and 12 MP photos. Functions of photographing, recording and controlling, like 360° camera rotation, can be completed through screen touch, buttons both on monitor & rod. This detector uses a 10.1 HD touch screen, a 5 megapixels 360° intercom camera (optional), a 5 megapixels hose intercom camera(optional), an infrared thermal imaging camera(optional) and a telescopic carbon fiber rod combination. Multiple combinations, simple assembly, convenient carrying, widely applicable to life rescue, disaster rescue, anti-terrorism and explosion-proof, scientific investigation, and other fields.

4K Tablet Monitor

360° Video Camera (audio optional, not included)

1. Lens
2. 12 LEDs
Adjustable Brightness
3. Microphone
4. Speaker

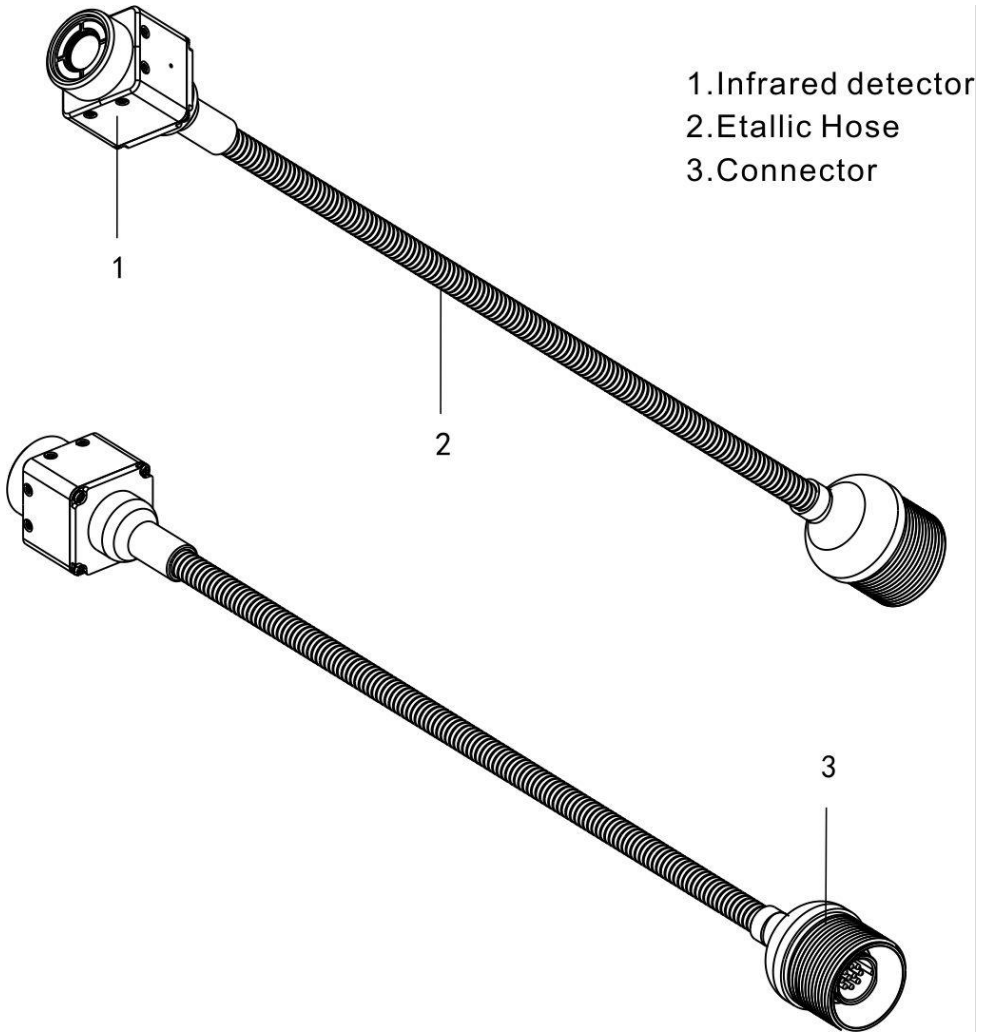

5. Up & Down
Rotation Unit
6. Left & Right
Rotation Unit
7. Circular Connector

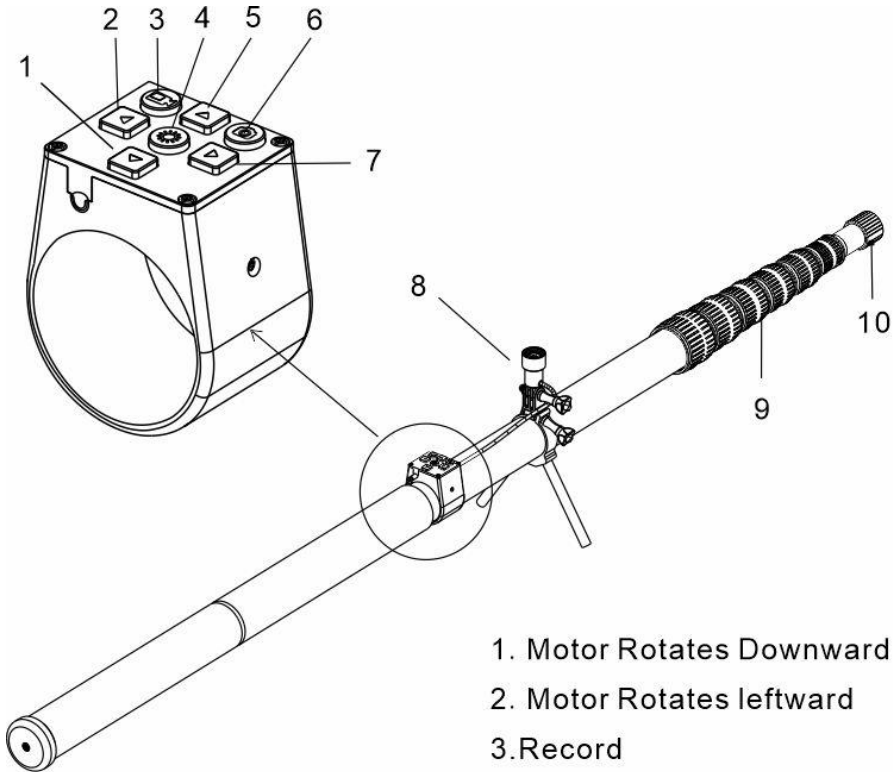

Audio and Video Camera (optional camera)

Infrared Thermal Imaging Detector (Optional)

Carbon Fiber Rod (the control part may change)

1. Motor Rotates Downward
2. Motor Rotates leftward
3. Record
4. Camera Brightness Adjustment
5. Motor Rotates Upward
6. Photo
7. Motor Rotates Rightward
8. Mointor Port
9. Fix Knob
10. Camera Port

Optional Setup, Installation & Use

1. Infrared Thermal Imaging Life Detector (Optional)

2. 360 ° Audio and Video Life Detector (Optional)

3. Audio and Video Life Detector (Optional)

Button Operation

-  **ON-OFF**

Press briefly to power on. Press it for 3s to power off. If crash, press it for 10s to power off and reset.

Push away the waterproof protective cover. Connect DC12V adapter with DC port, or connect Type-c port with USB-C adapter (user himself provided). During Charging, the indicator is on. When fully charged, the light turns off. It takes about 4 hours to fully charge.

Firmware Upgrade

Before upgrade, please ensure power is >20% (1 grid). Copy upgrade file (SigmatarUpgradeSD) to microSD card. Power on, it will auto upgrade. It will auto turn off after upgrade. Unplug card to finish upgrade.

Attention

1. Please use device under temperature between -20°C and 60°C . Excessive temperature will cause abnormal expansion, ignition and even explosion of the battery. Before using it under low temperature, it is recommended to fully charge under normal temperature to extend the life of battery.
2. Please place device in a proper position to prevent it from falling and breaking the screen.
3. This machine is dustproof and rainproof. Please do not immerse the machine in water.
4. If you continue to use the microSD card on this device after upgrade, please delete the upgrade file in the card first.

Specification

4K Tablet Monitor

Display	10.1inch 1280*800pixels
