Instruction Manual

Vividia® LCD/WiFi iSnakescope Borescope

<u>Safety Instructions</u>

Before first use please familiarize yourself with the proper usage of the device. Keep these operating instructions for future reference. This operating instruction contains important details for handling the device. Please pass it on along with the unit if it is handed over to a third party!

⚠️**Please read the safety instructions most carefully!**

These instructions will make it easier for you to handle the device appropriately and help prevent ⚠️ misunderstandings and possible damages.

Please note the following safety notes to avoid malfunctions, damage or physical injury:

● **Prevent object and liquid entry.** Never spill liquid of any kind on the video display and the main body of the unit.

● **The unit is not shock-resistant.** Do not use it as a hammer or drop it.

● **Do not immerse the camera and monitor in water.** Store in a dry place. Such measures reduce the risk of electric shock and damage. The imager head and the cable are water resistant when the unit is fully assembled, but the monitor and camera is not.

● **Do not use the camera if condensation forms inside the lens.** Let the water evaporate before using again.
Cautions

● The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquids, such as vases, shall be placed on the apparatus.

● Turn off the unit if not in use.

● Attention should be drawn to the environment aspects of the battery disposal.

● Remove the batteries when cleaning the unit.

● Remove the batteries before storing the unit for a long time.

● When necessary, REPLACE ALL FOUR BATTERIES in the unit with new ones.

● Use only the size and type of battery specified.

● Be sure to install the battery with the correct polarity as indicated in the battery compartment.

● Properly dispose of the battery. Exposure to high temperatures can cause the battery to explode, so do not dispose of in a fire. Please tape over the terminals to prevent direct contact with other objects. Some countries have regulations concerning battery disposal. Please follow all applicable regulations.

1） Power ON/OFF Button

2） Photo Button

3） Record Button

4） LEDs Brightness control Button

5） WIFI ON/OFF Button

6） 2.7" TFT LCD Monitor

7） Camera & LEDs

8） Flexible tube (Depending on models, the tube can be 9mm, 5.5mm, 3.9mm camera probes, or articulating camera probe)

9） Battery Compartment (4X1.5V AA)

To Install Batteries

1. Using a screwdriver, remove screw and cover
2. Remove battery compartment and insert 4 new AA (1.5 V) batteries into the proper slots in the battery compartment. Proper battery orientation is indicated on the battery compartment.
3. Reinstall battery compartment, battery cover and screw.

DownloadAPP

Download "**iSnakescope View**" from App Store on iPhont/iPad/Adnroid Smart phone

Technical Data

2.7" TFT resolution	960(H)X 240(V) pixels
Lens sensor resolution	640 X 480pixels
Sensitivity	1.8V (Lux.sec)
Color Mosaic	RGB Bayer pattern
Camera Φ	Depending on models (3.9mm, or 5.5mm, 8mm, 9mm)
Camera lighting	4 white LEDs
LED Lux	Max 600 +/-150 Lux by 20 mm
white balance	automatic
Exposure	automatic
Fidle of field	54°
Focus	3 - 6 cm
Operating temperature	0 to +45℃
OperatingHumidity	15 - 85% RH
Storage temperature	.-10 to +50℃
StorageHumidity	15 - 85% RH
Gooseneck length	57 cm +/- 2 cm
Total Length of Device	85 cm +/- 2 cm
Min.bending radius	45 mm
weight	Approx 320 g
Operating voltage	4 X 1.5VAA battery (not included)
Current consumption	Max. 350 mA

CE ♻ At the end of its serviceable life, this product should not be treated as household or general waste. It should be handed over to the applicable collection point for the recycling of electrical and electronic equipment, or returned to the supplier for disposal.
