### How to use VA-400i & VA-980i & VA-101i & VA-106i & G-810i & G-610i

1. Choose what display device you want to use, and make sure to download the needed app or software.
2. Plug **BD-8050i camera** in your device through USB plug or adaptor. Open the software or app.
3. You can see live images, take pictures and videos with the software.
4. You can take pictures by pressing the snap button on the control knob or the screen.
5. Switching the camera by long pressing the snap button on the control knob.

### Safety Precaution

1. The borescope should be used under 60°C (140°F). High temperature can increase video noise, even damage the camera sensors and electronics.
2. Do not immerse the camera in oils, water, gasoline, or other fluids for long time >5min.
3. Clean the lens with clean, soft fabric and/or Q-tips with alcohol to remove oils.
4. Use high quality OTG cable and USB extension cable when needed. And make sure the

connection is tight and secure. This will affect the image quality.

5. A phone/tablet case could affect OTG cable connection in some cases. Please remove the case if needed.
6. Avoid moisty environment, temperature shock and extreme temperatures. Dry surroundings help the life of the products.
7. Avoid dropping, violent vibrations, strong collision, or distortion.
8. Keep the device away from chemicals, explosive substances, and fire hazards.

### **Warranty**

One-year limited product quality warranty
